

Annual NIPA Revision Newly Available Table

As part of the annual revision of the national income and product accounts (NIPAs), this report presents the newly available table 7.19. The August 2005 SURVEY OF CURRENT BUSINESS included an article that described the results of the 2005 annual revision. It also presented the revised versions of most of the NIPA tables and his-

torical tables for the major NIPA series.

This issue also presents the most recent estimates of the net stock of fixed assets and consumer durable goods.

Tables 3.15–3.19 and 8.1–8.6 are scheduled to be published in the October SURVEY.

2. Consists of income earned by low-income individuals who are not required to file income tax returns, of unreported income that is included in the NIPA measure, and of gross errors and omissions in lines 2 through 15. Also includes the net effect of errors in the IRS adjusted gross income (line 17) and NIPA personal income (line 1) measures. Such errors can arise from the sample used by IRS to estimate line 17 and from the source data used by BEA to estimate line 1.
